

EUROPEAN CURRICULUM VITAE FORMAT

Personal Information

First name(s) / Surname(s)

Boris Bozhilov Todorov

Address

zh.k Trakiya, 109V, 4023, Plovdiv, Bulgaria

Phone(s)

BG (+359) 89 228 0415

E-mail

boristodorov12@gmail.com

Nationality

Bulgaria

Birth date

30/08/2002

Gender

Male

Portfolio

<https://boris264.netlify.app/>

Work Experience

Dates

March 2024 - July 2026

Occupation or position held

Full Stack Software Engineer

Main activities and responsibilities

Full-stack development on the Microsoft stack within a domain of multiple applications and microservices: C# and ASP.NET on the back end, SQL Server for data storage, and Angular and React on the front end.

Key accomplishment: Designed and built a tool for running consistency checks on the company's data, owning it end to end: project setup, build and release pipelines, and implementation. Reworked it to stream data instead of loading it into memory, cutting peak RAM usage from 4-5 GB to under 700 MB so it could run within the limits of an Azure App Service shared with the other applications in the domain.

Name of employer

Cobuilder International

Location

Sofia/Bulgaria and Remote

Type of business or sector

Software for construction data management (SaaS)

Dates

July 2022 - July 2023

Occupation or position held

Junior Software Developer

Main activities and responsibilities

Development of a Web Application with C# designed to help the testing of internal AI projects. This application allows for secure image upload and executing tasks in the background. Active participation in the development and maintenance of various projects using C/C++ and Bash on Unix-based OS, using development environment technologies like Docker and build systems like CMake, GNU Make, Meson and Android Make.

Honorable mention: Research for various internal projects.

Name of employer

MM Solutions EAD

Location

Plovdiv/Bulgaria

Type of business or sector

Embedded Systems, Software Development and Maintenance

Personal Projects

Name **Authentication Manager**

Description A class library, written in C#, which is used to add authentication services into an application. It supports basic authentication actions, such as Login, Register and Logout. The information about a currently logged in user is stored inside of a Redis server by a Middleware. The user gets a sessionId, which is used to access his information in the cache.

Name **Portfolio**

Description A static portfolio website, containing information about me, all of my certificates, projects and work experience. It was built with React, Javascript and Vite as a build tool.

Education and training

Dates **September 2021 - June 2023**

Title of qualification awarded Computer Engineer

Name and type of organisation providing education and training Technical University of Sofia - branch Plovdiv

Location Plovdiv, Bulgaria

Level Bachelor's degree

Additional information Did not complete the degree.

Dates **September 2016 - March 2021**

Title of qualification awarded Electronics technician

Name and type of organisation providing education and training Vocational High School of Electrical Engineering and Electronics - Plovdiv

Location Plovdiv, Bulgaria

Level High School

Main Subjects **Microprocessor Technology**
Digital Circuits
Microcontroller Programming
Analog Circuits
Electrical Engineering
Computer Systems

Additional Courses **MMS Star Camp** - C and Embedded programming
SoftUni Programming Basics (10/2020 - 11/2020)
SoftUni Programming Fundamentals with C# (01/2021 - 04/2021)
SoftUni C# Advanced (05/2021 - 06/2021)
SoftUni C# OOP (06/2021 - 08/2021)
SoftUni MS SQL (09/2021 - 10/2021)
SoftUni Entity Framework Core (10/2021 - 12/2021)
SoftUni C# Web Basics (01/2022 - 02/2022)
SoftUni ASP.NET Core (02/2022 - 04/2022)
SoftUni Javascript Advanced (05/2022 - 06/2022)
Getting Started: Clean Architecture in .NET (10/2023 - 10/2023)
React Basics - Coursera, authorized by Meta
Programming with Javascript - Coursera, authorized by Meta
Introduction to Front-End Development - Coursera, authorized by Meta

Personal skills and competences

Mother tongue:	Bulgarian			
Languages		Comprehension	Speaking	Writing
	English	Advanced	Intermediate	Intermediate
Computer skills and competences	Main Programming Languages: C#, C/C++ Web Technologies: ASP.NET Core MVC, Entity Framework Core, ADO.NET, HTML, CSS, Javascript, React, Vite Relational Databases: PostgreSQL, SQL Server Software engineering: Data Structures and Algorithms, Threads and Processes, Asynchronous programming, OOP, Design and Architectural Patterns, SOLID Principles Build Systems: CMake, GNU Make, Android Make, Android Soong, Meson Other skills: Redis, Git, GitHub, SQL, Docker, networking, gcc/clang, Bash, Python, Linux programming			
Other skills and competences	Adaptability, problem solving, logical reasoning, critical thinking, research, teamwork, technical writing, confidentiality, honesty, meeting deadlines			
Additional Details				
Availability	Immediate / to be determined in the interview			
Driving License	Yes			
Categories	AM, B1, B			
Own vehicle	Yes			
Desired city / place for work	Plovdiv/Bulgaria			
I may accept relocation offers for	Work from home Plovdiv, Bulgaria Other cities in Bulgaria - remotely Other countries - remotely
